

The Ascension Network

Your doctors, your hospitals, your personalized care — all on your schedule

One network with everything you need

SafeGuard Wisconsin wants to make it simple for you and your employees to get the care and coverage you need. That's why we're so excited to offer the Ascension Network. It's one comprehensive network, formed when four Wisconsin healthcare systems came together under the Ascension name. It means easy access, more choice and continuity of care, across the state and in your neighborhood.

Network highlights:

- **Four hospital systems all in one network** — Whether you and your team preferred Columbia St. Mary's, Wheaton Franciscan Healthcare, Affinity Health System or Ministry Health Care, they are all now Ascension and a part of this comprehensive plan.
- **Online scheduling** — Schedule from home, office or on the go and get the care you need, when you need it.

- **Same-day appointments** — Ascension understands you sometimes need care sooner rather than later. Many Ascension doctors have same-day appointments.
- **Compassionate, personalized care near you** — Get care in your neighborhood. With over 110 healthcare facilities across Wisconsin, you're sure to find the care that's right for you, right near you.
- **Urgent care sites** — Sometimes you need care right away for sprains, strains, allergic reactions and more. Ascension has urgent care sites near you, many with a lab and imaging on-site.
- **Specialty care** — Finding the specialty care you need should be easy. Ascension care teams help connect you to the right care for you and your family.
